

Welcome to Madrid

This women's hall of residence is managed by the Order of Slaves of the Immaculate Heart of Mary. They offer full board (although no meals are served on Sundays) and lodging in single rooms with washbasin and a laundry service is included in the price. Showers and toilets are shared.

Other facilities are a library, assembly hall and TV room. The selection process takes the students' academic record into account and there is an interview process involving both students and their parents. The hall of residence is closed during August and is very close to the University Campus.
