Catalonia Goya

Hotel Catalonia Centro has adapted perfectly to the exclusive atmosphere of the Salamanca neighbourhood where it is located, a good choice both for visitors who are in town for business and for those who are travelling for pleasure, as well as an ideal option for lovers of haute-couture and luxury.

In order to get established in this area, the hotel chose a 19th-century building located on calle Goya which respects the architectural environment. On the outside, the glass-paned balconies covered by wrought iron stand out on the brick façade. Its interior features dark designers’ furniture contrasting with their red sofas and complements. The rooms have a very modern and functional decor and include Japanese-inspired bathrooms.
