

Welcome to Madrid

Petit Palace Ducal is the perfect choice for lovers of new trends for its atmosphere and for being a meeting point for celebrities and artists of all sorts. It is located in the Chueca neighbourhood, the most cosmopolitan area in the city.

This hotel boutique has combined past and present, creating a space which is very much in line with the times and the area. The background comes with the building, a former palace built in the late 19th century on the corner of Gran Vía and close to the surrounding monuments. The rest is attained through a minimalist decor, functional and innovative, as well as the latest technology and the feel that comes from this particular central location in the Chueca and Gran Vía area.
