

# Dreams Ice Palace

An enjoyable day with family, friends or classmates allowing your creativity to flow to the rhythm of the music or learning to balance yourself on the thin blades of ice skates. The Dreams Palacio de Hielo Ice Rink has an Olympic-size rink that measures 98 x 197ft. to practice skating, which combines physical strength with artistic expression--an opportunity to spend a fun afternoon on skates in the Airport / Feria de Madrid area.

Since 2003, this facility has offered courses in ice-skating, hockey and curling during the week, while becoming a place for family fun during the weekends. It also offers the possibility of celebrating birthdays for young (and not so young) children with a picnic and snack bar area, and the whole of the frozen surface reserved for skating and having fun.
