

Beer Station

With a decor inspired by an old train station, this international bar is famous for its welcoming atmosphere and wide range of beers, which can be drunk with home-made hamburgers, hot dogs, salads and a selection of Central European dishes for diners to share, as well as desserts, coffee and milk shakes. Located near **Gran Vía**, one of its distinctive features is the live performances staged there, which include concerts, **monologues** (some in English, with native comedians) and a variety of theatrical events.
