

Welcome to Madrid

This central hall, alongside the Gran Vía, opens every day to offer concerts in which emerging and well-known artists from the Spanish independent scene participate, as well as international artists. As it is open every day, it has become a cult place in Madrid's nightlife.

As well as concerts, on days when there is no scheduled performance, today's top DJs liven up the night with the most outstanding rock songs, ranging from the sounds of the 1960s to modern-day hardcore, as well as pop, metal, punk, country or new wave.
