

Café La Palma

Local premises steeped in history whose undisputed protagonist is live music. It can be said that this was where the idea of a 'first drink' was coined, to the sound of the notes of Funk, House, Electro, etc. It has hosted artists like Amparanoia, El ChoJin, Pereza, Vetusta Morla and Mala Rodriguez among others.

It has also hosted artists like Angel Molina, Deetron, Tim Baker, Jori Hullkonen, Steve Cobby and many more. It is divided into several spaces: concert room (the star attraction of the venue), a room with tables and chairs in the form of traditional cafe where customers can talk quietly, a chill-out space and a room with a classic bar for the most traditional. You can chppse depending on your mood, in the same space, between a quiet drink and chat or hitting the dance floor to the rhythm of the most avant-garde beats. In addition to the live music they also offer theatre, classic cinema and short film presentations, exhibitions, performances... a space for culture.
