

# Welcome to Madrid

This American style **cocktail bar** is one of the most popular in Madrid. Located near **Gran Vía**, it offers leading brands of drinks, a wide range of cocktails and an extensive selection of **gin-tonics**, the speciality of the house. Old favourites such as the Manhattan, Cosmopolitan and Bloody Mary are joined by others specially created by the bar's staff, including the Marlango, the Josealfredo and Los Jiménez. Nearly 30 different types of gin-tonic are available. Josealfredo has a welcoming atmosphere. It is long, narrow and softly lit, with a bar that runs through to a room furnished with small tables and sofas in retro style. The background music features soul, funky and jazz, played at a discrete volume which does not inhibit conversation. The owners of Josealfredo also run the Café Berlín, a historical live music venue open until the small hours.
