

# Independance Club

In the heart of Madrid's historic district, the Independance Club is a key indie music venue. It offers live music and its stage has been home to national and international DJs and groups such as Mando Diao, Catpeople, Supersubmarina, We are Standard...etc. Every Thursday, the venue is turned into Nature Club, an ideal space for electronic music lovers.

As well as concerts, there are themed nights and special events dedicated to the biggest bands of all time.
