

# Welcome to Madrid

**Located in the shopping and leisure centre Intu Xanadú, in Arroyomolinos, just over 20 minutes from Madrid, this ski resort is one of the largest indoor slopes in the world, and the only one in Spain. It offers its visitors 18,000 square metres dedicated to the world of snow, both for expert skiers and for those who want to get started in this sport.**

Madrid SnowZone has a main slope with a length of 250 metres, 55 metres wide and a gradient of more than 25%, and another less steep slope 100 metres long and 40 metres wide, perfect for beginners in skiing. Among its complementary leisure proposals are tobogganing and snowbikes.

For the little ones it has the Snowgarden children's snow garden, where children can enjoy various activities that stimulate their psychomotor skills.
