

Welcome to Madrid

This is Europe's biggest water park, with 14 attractions and a large green area where visitors can relax or sunbathe.

Its attractions are divided depending on their wow factor and adrenaline rush. Therefore, there are those for Big Thrills (slides with hair-raising inclinations), Moderate Excitement, perfect to enjoy with all the family, and for Children, especially designed for the little ones.

Alongside the wave pool, there is a large beach of fine, white sand with decorative elements that take bathers to Hawaiian scenarios.
