

La Quesería

The universe of cheese is located in the Madrilenian Chamberí neighbourhood. La Quesería is a place that no cheese-lover can miss, as well as the perfect shop for neophytes and those lacking experience in the world of this delicacy, since the owners are always willing to share their knowledge and passion for this product.

And for those who can't go by the store, they have started an online shop through their website. The store is comprised by cheeses featuring every flavour, aroma and texture. They include varieties from Italy, Switzerland, Portugal, France and Greece, all of the countries where there is an art and a passion for cheese making. But they specialize in Spanish cheeses, the national production, carrying over 20 Designations of Origin from all types and for all sorts of palates.
