

# Welcome to Madrid

**The designs of the first lady of high fashion, be they evening wear or sportswear, stand out for their exquisite taste and attention to detail, the refined shapes, the excellent quality of the fabric and the modern elegance of the cut. All of which has made Carolina Herrera a firm favourite with celebrities in the arts.**

As well as clothing, the Madrid shops also sell other product lines from the same designer, such as accessories, bags and fragrances- which have become highly sought after across the world.
