

Pepe Jeans

What started off as a weekend stand at the Portobello Road Market in London is now one of the most important denim brands in Europe, represented by models like Kate Moss.

Pepe Jeans started back in 1973 and has become synonymous of casual and practical, modern and functional, taking denim to the level of a noble and exclusive fabric. Present in all five continents, Pepe Jeans has spread their Londoner style to Madrid as well, in two of the most popular young shopping areas –calle Fuencarral and calle Princesa- and also in the exclusive Salamanca neighbourhood, on calle Hermosilla.

Jeans, t-shirts, jackets, sneakers, boots, skirts and tops, as well as accessories such as eyewear and watches fill their stores in which the carefully selected decor is very much in line with the fresh, innovative and urban look that the brand confers on men’s, women’s and children’s clothing.
