

# Welcome to Madrid

**Her creations, which also include accessories like bags in all shapes and sizes, suitcases or eyewear, combine an inherent elegance with a strong sense of functionality, both in her more formal lines and the more casual PG Sport.**

Her stores in the capital -two on calle Serrano and one in the Moda Shopping Mall on calle General Perón- reflect the minimalist aesthetics of her collections. Lined up all along a narrow hallway are her latest proposals from the catwalk, emphasized by mysterious lighting effects which recreate a foggy atmosphere. The ample space is multiplied by mirrors which also show furniture combining ebony and stone.

Her carefully selected interior design is also present in her home collections, created not to furnish, but to decorate, ranging from linens and duvet covers to details like candles and cushions.
