

# Welcome to Madrid

If you are looking for a sports footwear store that offers the very latest in urban style, this is the place for you. This sports fashion retail outlet revolutionised the industry over 30 years ago, offering a collection of trainers with different models and types to choose from (leaving behind the idea that there were only three types of training shoe: tennis, basketball, and athletics). Not only did this strategy work, it was hugely successful, and there are currently over 4,000 Foot Locker stores throughout the world.

The industry's biggest brands can be found here: Adidas, Converse, Lacoste, Le Coq Sportif, Nike, Puma... For men and women, along with a range of clothing (jackets, sweatshirts, caps, etc.).

Such is the chain's enthusiasm for trainers that they even created a 'Hall of Fame' featuring the brands and models that have changed the world of trainers (Nike Cortex, Adidas Stan Smith, Puma Clyde, Converse All-Star are a few examples).
