

Welcome to Madrid

Located in the heart of the literary quarter in Madrid, and the centre for art and culture in the city, Modernario is a space dedicated to the exhibition, sale and promotion of designs from the 20th century.

Although the current catalog places special emphasis on Scandinavian design from the end of the century, and particularly on the creations on Hans Wegner, Finn Juhl, Arne Jacobsen, Verner Panton, Kofoed Larsen, Hovmand-Olsen, Poul Henningsen, Poul Kjaerholm and Bruno Mathsson, they also hold designs by Charles and Ray Eames, Frank O. Gehry, Louis Kalff, Le Corbusier, Charlotte Perriand, Fontana Arte and Pierre Giraudon.

Spanish design from the 20th century, particularly the work of, among others, Antoni Gaudi, Luis Feduchi, Torres Clave, Antonio Bonet, Oscar Tusquets and Rafael Moneo, will also occupy an important position in the collection, as well as great Belgian, French, German, Italian and Japanese designers from the end of the century.

Modernario has another shop at Calle de Moratín, 30.
