

# Welcome to Madrid

Located in a former bakery, this small shop in the Literary Quarter is perfect to find an original and fun gift. Its décor has taken advantage of the former establishment's furniture, such as the marble counter, the golden mouldings or the wooden exterior.

Since 2005, La Integral has brought together the work of independent artists. In addition to products by local designers, it is possible to find vinyl records, books, fanzines, clothes and creations by international artists there.
