

Welcome to Madrid

In 1930 Juan Bourignon came from Holland and settled in Madrid and the family has now been selling flowers for over 80 years. Today, the founders' grandson runs one of Madrid's most elegant and modern flower shops.

Customers can find flowers here for any occasion, from a wedding to a sales convention. The florists work with all kinds of plants, which allows them to create original indoor and outdoor displays, and they can provide a wide range of flower arrangements for private customers and for companies.
