

Tipos Infames

Tipos Infames is a bookshop specialising in a careful collection of fiction and specially selected essays, children's books and foreign-language books, which the owners plan to broaden over time. What is more, there is a café/wine cellar where you can sample unconventional signature wines and beers that you won't find on the traditional commercial circuit.

The reader/customer is invited to accompany their reading with a delicious beverage, acquire the latest book releases, purchase a bottle of wine from the cellar or enjoy a relaxed drink in a pleasant, quiet setting.

The offering is completed by the basement, which is an exhibition room and location for holding writing courses, wine tasting and other events, such as book releases and press conferences.
