

Gastrofestival 2020

Once again Madrid becomes a feast for the senses with a new edition of Gastrofestival that celebrates its eleventh anniversary this year. It is a festival dedicated to everything indulgent and it is a great place to see how food and wine can be combined with other art forms.

This annual event promotes Madrid's culinary offer and explores the connection between the culinary art and other art forms like painting, literature, music, film, theater, photography, design and fashion.

Restaurants, cocktail bars, produce markets, cooking schools, gourmet shops, kitchenware shops, museums, art galleries and clothing stores will all take part in this great festival where art plays a major role. It is a full experience, a great feast for the senses that invites us to enjoy all the dimensions of food: special menus, culinary tours, cooking classes...

Numerous events revolve around the usual themes: **Gastronomical Madrid, Gastroculture, Sensory Experiences, Enoculture, Gastrofashion, Gastrohealth and Charity Gastrofestival.**
