

Welcome to Madrid

The sixth edition of Open House Madrid is here, an international architecture and design festival which enables you to visit the city's most emblematic buildings by means of guided visits with reduced groups or virtual visits. Spaces that are normally closed to the public will be on display, as well as corners that go unnoticed. Visits will also be offered to the most renowned architecture studios in the city.

For 2020, a **Special Edition** due to the exceptional situation caused by COVID-19 has been created, designing a new concept adapted to the new environment, with the aim of bringing society closer to Madrid's architecture and design **free of charge**. Furthermore, the **Safe & Clean Protocol** has been developed in order to ensure the health and safety of all participants, and the organisers are in constant contact with the authorities to ensure that the festival fulfils all of the conditions for it to be held.

The **sixth edition** will have a full range of activities that include **exterior routes, urban tours, exhibitions, conferences and round tables** on topics of interest via streaming.

Open House Madrid has become consolidated as the **reference architecture event in Spain**. More than 280,000 visitors from all over the world in the past five editions have turned the festival into a **must visit for fans of architecture and design**.

It forms part of Open House Worldwide, the world's first network of architecture festivals, visited by **millions of people in more than 40 cities** (London, Lisbon, New York, Barcelona, Buenos Aires, Milan, Rome, Sydney, etc.).
