

Heliflights Spain: helicopter rides and routes

This company, based at Cuatro Vientos Airport, offers touristic helicopter rides over Madrid and its surroundings. Its routes fly over places such as Casa de Campo, El Pardo, the Madrid Sierra, Toledo, Aranjuez or Avila, from where you can enjoy the best panoramic views of the city.

Heliflights Spain offers touristic helicopter rides, with specified routes and fixed prices which are easy and rapid to book.

The routes, which can be booked through its website, are in a Robinson R44RII helicopter for three passengers, although it is also possible to opt for a combined transfer in private jet and helicopter, to any exclusive destination, including diverse helicopter experience options.

The service offers pick-up from any point in Madrid indicated by the client, transfer in a luxury vehicle to the Terminal at Cuatro Vientos Airport (only authorised point for take-off and landing in Madrid) from where the helicopter ride begins and ends and transfer to the point of origin (or anywhere in Madrid that the client requests).
