

Teatro de las Aguas

This theatre, located in the district of La Latina, is a leading light in the city's Off theatre scene. The space, decorated in the manner of a classical theatre with plush seats, stage lighting, tapestries and a curtain, has technical facilities capable of staging any kind of theatrical production, music performances, dance shows, concerts, courses, talks, or presentations. There is also an 'ambigu' on the ground floor, a kind of pit where you can have something to eat and drink while you enjoy the show.
