

Welcome to Madrid

Located in the Lavapiés district, this alternative theatre is one of the most emblematic in the city. Its programme does not just include theatre (for all ages), but it is also possible to enjoy films, magic, concerts or workshops there. It also has a bar with a terrace that is open in the summer, where you can savour cocktails and celebrate private and corporate events.

La Escalera de Jacob is a cultural project which seeks to provide space for artistic proposals that move away from the most commercial circuits, in an intimate setting, where the spectator feels part of the show.
