

Alice Cooper

Nine years after his last Spanish tour, Alice Cooper returns to Madrid. The legendary hard rock and metal singer brings a great live show accompanied by several other musicians as a part of his *Oi Black Eyes Is Back* tour.

Born in Detroit and considered the creator of shock rock, Vincent Damon Furnier, better known as Alice Cooper, has had a successful rock career spanning more than five decades. The American singer has performed great hits in his career, ever since he released his *Pretties For You* in 1969 up to the acclaimed *Killer*, *School's Out*, *Billion Dollar Babies*, *I'm Eighteen* and *Poison*.

His last release, *Paranormal*, from 2017, is his 27th album in a stellar career that brought him a place in the Rock And Roll Hall of Fame in 2011. It is an album that includes collaborations with several old Alice Cooper band members.

In 2012, the singer had a part in the film *Dark Shadows*, directed by Tim Burton, where he performed two of his most famous songs *No More Mr. Nice Guy* and *Ballad of Dwight Fry*. It is a film starring Johnny Depp with whom Alice Cooper has been working on a project *Hollywood Vampires* since 2015. It is a rock band that honors the music of the rock stars who died from excess in the 1970s comprising Alice Cooper, Johnny Depp and the guitarist Joe Perry.

The man (and the band) who first brought shock rock to the masses, Alice Cooper became one of the most successful and influential acts of the '70s with their gritty but anthemic hard rock and a live show that delivered a rock & roll chamber of horrors, thrilling fans and cultivating outrage from authority figures (which made the fans love them all the more). His live shows are legendary, so make sure you catch him on his latest tour *Oi Black Eyes Is Back*.
