

# Welcome to Madrid

**Located in a garage, between the districts of Latina and Carabanchel, we find this space open to creation, training, research, and performance with a conception of theatre as collective art. TeatroLAB Madrid is the resident company of Espacio Gallinero. Founded in 2012 by the director Gabriel Olivares, it focuses on theatrical research and collective creation.**

The venue is spread over 300 square metres and offers regular training for professional actors, art residences and research workshops. A space that has been home to Andrés Lima and Juan Cavestany, among other acting professionals. As well as productions such as Me gusta como eres and Cadiz, directed by Gabriel Olivares.
